How Can a Creator Earn?

YouTube ads are only one possible income stream.

YouTube Monetization: The Basic Idea

Earlier access / Expanded YPP

500 subscribers + required uploads and either 3,000 public watch hours OR 3M Shorts views → access to some fan-funding & Shopping features (subject to YouTube rules)

Broader monetization

1,000 subscribers + either 4,000 public watch hours OR 10M Shorts views → eligibility for ad revenue sharing & YouTube Premium (subject to requirements)

Eligibility ≠ guaranteed income.
