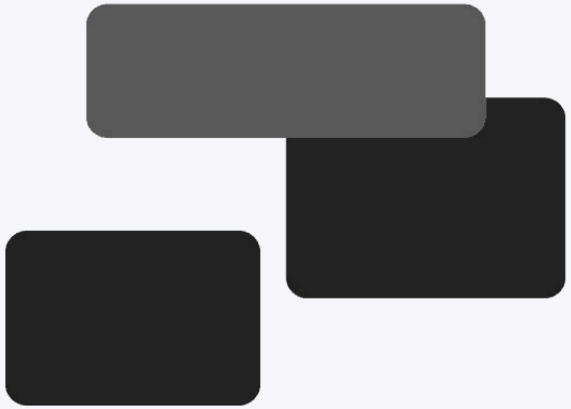

GRAPHIC DESIGN

Visual Communication

From visual ideas → marketable creative work

Presented by: Ayush Khuntiya
BCA 5th Semester

Graphic Design

Good design makes a message easier to notice, understand and remember.

IDEA

Message Goal
Audience

DESIGN

Type
Color Layout Imagery

IMPACT

Attention Clarity Action

Core principle

Design is not decoration. It is communication with intent.

The 5 rules behind strong visual work

01 Hierarchy
Tell the eye what to read first.

02 Contrast
Create clear differences and focus.

03 Typography
Use type to set tone and improve readability.

04 Whitespace
Give important elements room to breathe.

05 Consistency
Repeat visual choices to build a system.

Career-ready design outputs

BRANDING
Logos • identity • guidelines

PRODUCT
UI • UX • design systems

CONTENT
Thumbnails • banners • covers

MARKETING
Posters • flyers • ads

SOCIAL
Posts • stories • campaigns

PRINT
Cards • packaging • brochures

A professional project is a process, not a single click

01 Brief
Goal, audience, deliverables

02 Research
References, competitors, mood

03 Concept
Sketch, direction, visual idea

04 Design
Layout, type, color, imagery

05 Review
Feedback + revisions

06 Deliver
Final files + usage formats

Tip: show the process in your portfolio — clients buy confidence, not just a final image.

Choose tools by the job, not by the hype

Canva
Fast social, presentations & brand content Templates + AI workflows

Figma
UI/UX, prototypes & collaboration Design systems + handoff

Photoshop
Photo editing & compositing Raster + image manipulation

Illustrator
Logos, icons & vector graphics Scalable artwork

GIMP
Free image editing option Open-source workflow

AI changes the workflow — not the need for taste

AI
Generate
Explore more directions

REFINE
Remove repetitive work Speed up editing

HUMAN JUDGMENT
Choose what is right
For the audience

BRAND THINKING
Keep work
Consistent

Best positioning: AI-assisted + human-directed.

A practical 6-stage roadmap

01 Observe
Study strong layouts and rebuild them.

02 Learn
Master typography, color and composition.

03 Tool up
Become fluent in one primary tool.

04 Practice
Create small briefs every day.

05 Portfolio
Show 6–10 strong, explained projects.

06 Sell
Start with a niche and real clients.

Learn → Make → Show → Sell

Package outcomes, not random design tasks

BRAND STARTER

Logo + colors + type + basic usage

SOCIAL KIT

10 posts + 5 stories + templates

CREATOR PACK

YouTube thumbnails + banners + covers

BUSINESS KIT

Cards + flyer + digital banner

Start local, then move into niches with repeat demand

Local businesses
Cafés • shops • salons

Creators
YouTubers • Instagram

Startups
Launch assets • pitch decks

Events
Posters • invitations • promos

Coaches
Social content • course graphics

Agencies
Overflow production support

Choose one niche → understand its content needs → build a focused portfolio.

A simple acquisition loop for a beginner

01 Build proof
Create 6–10 niche-specific samples.

02 Reach out
Send short, personalized messages.

03 Offer value
Show one useful improvement.

04 Deliver well
Clear timeline + revisions.

05 Ask again
Referral + retainer + next project.

Portfolio + outreach + reliability = repeat business

Entry-level examples

Thumbnail

■100–■300

Fast turnaround

Poster / Flyer

■200–■500

Print + digital

Business Card

■200–■500

Front/back + source

Logo

■500–■1,500

Concept + revisions

Upgrade path: single task → bundle → monthly retainer → brand system

Show outcomes, not just pretty pictures

LOGO
Brand identity
Brief → concept
→ final

SOCIAL
Campaign
Brief → concept
→ final

THUMB
Creator
Brief → concept
→ final

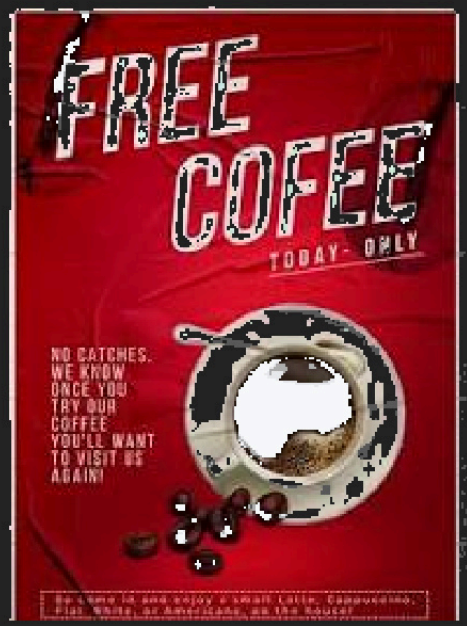

6–10 strong projects

One niche • One visual style • Clear case studies

Poster Design — Practical Example

CREATE

YOUR VISUAL STORY

POSTER • EVENT • PROMOTION

Clear hierarchy + contrast + whitespace

WHAT MAKES IT WORK

Strong headline = hierarchy
Different sizes = contrast
Open space = readability
Simple message = clarity

WHERE TO USE

Events • offers • business promotions
Social media • print • advertisements

From skill to business

Design is a skill.

A portfolio is proof.

A system is a business.

Learn the fundamentals → use modern tools → sell outcomes → keep improving. → build focused work

01 LEARN	02 CREATE	03 SELL	04 GROW

THANK YOU
